## REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

The prior arts of record do not teach nor suggest, either alone or in combination, all the limitations of the amended claims of the current invention (claims 1, 6, 11, 20 and 28); particularly a method, apparatus and a system in which the value of the page usage metric get compared with (i) the values of page usage metrics for other processes (as recited in claims 1, 11, 20 and 28); or (ii) the sum of the values of page usage metrics for other processes (as recited in claim 6); and at least one entry in the translation look-aside buffer (TLB) is locked, in response to comparing the value of the page usage metric, to make the at least one entry available to the process during at least two active periods of the process.

Claims 7-10, 14-15, 19, 22-23 and 30-44 further limit the allowable independent claims. These claims are therefore allowable for the same reason as set forth supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
